Data Visualization with Power BI and Tableau

Practical – II

Roll No.: T033	Name: Prajapati raj
Class: TYIT	Batch: 1
Date of Assignment: 31-07-2026	Date/Time of Submission: 31-07-2026

Working with Data Sources and Data Preparation in Tableau ..

a) Connect to different data sources (Excel, CSV, Database)

Step 1:

Open Tableau Desktop.

Click **Connect** or Text file

Select **Microsoft Excel**, **Text File (CSV)**, or **Database**.

Click open or connect.

b) Create and use data extracts vs live connections

Tableau - Book1

e) Apply data blending between two sources .

Blend Relationships

Blend relationships determine how data from secondary data sources are joined with primary data sources.

Primary data source: customers-100-selected-columns

Secondary data source: Sample - Superstore Sales (Excel...)
